RELEASE OF PUBLIC INFORMATION

SECTION

- 20-401. Procedures regarding access and inspection of public records.
- 20-402. Fees for copying public records.
- 20-403. Municipal computer systems.
- 20-404. Availability of information.
- 20-405. Application from planimetric mapping system.
- 20-406. Disposition of records.

20-401. Procedures regarding access and inspection of public records. (1) Consistent with the Public Records Act of the State of Tennessee, personnel of the City of La Vergne shall provide full access and assistance in a timely and efficient manner to Tennessee residents who request access to public documents.

(2) Employees of the City of La Vergne shall protect the integrity and organization of public records with respect to the manner in which the records are inspected and copied. All inspections of records must be performed under the supervision of the records custodian or designee. All copying of public records must be performed by employees of the city, or, in the event that city personnel are unable to copy the records, by an entity or person designated by the records custodian.

(3) To prevent excessive disruptions of the work, essential functions, and duties of employees of the City of La Vergne, persons requesting inspection and/or copying of public records shall complete a records request form to be furnished by the city. If the requesting party refuses to complete a request form, a city employee shall complete the form with the information provided by the requesting party. Persons requesting access to open public records shall describe the records with specificity so that the records may be located and made available for public inspection or duplication, as provided in (2) above. All requests for public records shall originate with the department that will be providing the records.

(4) When records are requested for inspection or copying, the records custodian has seven (7) days to determine whether the city can retrieve the records requested and whether the requested records contain any confidential information, and the estimated charge for copying based upon the number of copies and amount of time required. Within seven (7) days of a request for records the records custodian shall:

- (a) Produce the records requested;
- (b) Deny the records in writing, giving explanation for denial;

or,

(c) In the case of voluminous requests, provide the requestor, in writing, with an estimated time frame for production and an estimation of duplication costs.

(5) There is no charge assessed to a requester for inspecting a public record. Charges for physical copies of records, in accordance with the Office of Open Records Counsel (OORC) schedule of reasonable charges, shall be adopted by a resolution of the board of mayor and aldermen.

(6) Requests requiring less than one (1) hour of municipal employee labor for research, retrieval and duplication are free to the requester. Labor in excess of one (1) hour may be charged by the city, in addition to the cost per copy as adopted by a resolution of the board of mayor and aldermen. The city may require payment in advance of producing voluminous records. Requests for copies of records may not be broken down to multiple requests for the same information in order to qualify for the first free hour. For a request requiring more than one (1) employee to complete, labor charges will be assessed based on the following formula: In calculating the charge for labor, a department head shall determine the number of hours each employee spent producing a request. The department head shall then subtract the one (1) hour threshold from the number of hours the highest paid employee(s) spent producing the request. The department head will then multiply the total number of hours to be charged for the labor of each employee by that employee's hourly wage. Finally, the department head will add together the totals for all the employees involved in the request and that will be the total amount of labor that can be charged.

(7) The police chief shall maintain, in his or her office, records of undercover investigators containing personally identifying information. All other personnel records of the police department shall be maintained in the human resources department. Requests for police department personnel records, other than for undercover investigators, shall be made to the human resources department, who shall promptly notify the police chief of such request. The police chief shall make the final determination as to the release of the information requested. In the event that the police chief refuses to release the information, he shall provide a written explanation of the reasons for not releasing the information.

(8) If the public records requested are frail due to age or other conditions and copying of the records will cause damage to the original records, the requesting party may be required to make an appointment for inspection.

(9) With the exception of the removal of records by employees and officials who may, from time to time, remove documents in performance of their duties, removal of records from any city building shall not be permitted. (Ord. #2009-05, May 2009)

20-402. Fees for copying public records. (1) The city shall establish reasonable fees to cover the cost of the reproduction of public records. Such fees

shall be established by an ordinance approved by the board of mayor and aldermen.

(2) All fees for copying public records shall be due at the time such costs are incurred.

(3) No fees shall be assessed against officials, employees or board/committee members of the City of La Vergne who make requests which are reasonably necessary to the performance of their official duties.

(4) No reproduction fee shall be assessed when an employee of the City of La Vergne determines that the cost of charging and handling the fee exceeds the cost of providing a copy without charge.¹ (Ord. #2009-05, May 2009, as amended by Ord. #2013-17, Oct. 2013)

20-403. Municipal computer systems. Only city employees will operate municipal computer systems. (Ord. #2009-05, May 2009)

20-404. Availability of information. Information contained in municipal computer systems may be printed in a paper form and provided to a requesting party. Digital computer files are available only from the planimetric mapping system and may be released in accordance with the schedule of fees established by a resolution of the board of mayor and aldermen. (Ord. #2009-05, May 2009)

20-405. Application from planimetric mapping system. Any information received from the Planimetric Mapping System, may only be released after the requesting person completes an application which includes a notice of limitation of liability and accuracy statement for planimetric and topographic mapping. (Ord. #2009-05, May 2009)

20-406. Disposition of records. (1) The following positions are charged with authorizing and approving the disposition and destruction of records that no longer have administrative, fiscal, legal, or historical value for their respective departments: city administrator, city engineer, city recorder, codes director, finance director, human resources director, information technology director, library director, parks and recreation director, police chief, public works director, and tax collector.

(2) The positions described above are charged with maintaining the records in their respective departments.

(3) The positions described above are authorized to dispose of any permanent paper record in their department when the record has been photocopied, photostated, filmed, microfilmed, preserved by microphotographic process, or reproduced onto computer or removable computer media, including

CD-ROM or DVD-ROM disks, in accordance with Tennessee Code Annotated, § 10-7-121.

(4) The disposition of records shall be in accordance with the record retention schedule recommended by the University of Tennessee's Municipal Technical Advisory Service, pursuant to the authority granted in Tennessee Code Annotated, § 10-7-702. However, records may be retained for longer periods when it would be advisable or otherwise helpful to do so. (Ord. #2009-05, May 2009)
